

# Getting There.

## Villa Lale

Orhaniye is located on the **Bozburun peninsula** which is protected by government laws against the excesses of mass tourism. The Bozburun peninsula is at the point where the Mediterranean sea meets the Aegean sea so it has a wonderful climate all year around. The local climate is similar to that found in California, with hot summers and wonderful mild winters.

### **Directions from Dalaman Airport:**

When you leave the airport follow Hwy 400 signposted to Mugla. Stay on this road all the way past Köycegiz until you get to Gokova (Akyaka), where you will turn left at the roundabout remaining on Hwy 400, following signs to Marmaris.

### **Directions from Marmaris:**

When you get to Marmaris remain on Hwy 400 following the signs to Datça (right fork). About 15Km along this road you will take a left turning signposted to Bozburun. As you take this turning you should pass a Pide Restaurant/market immediately on your right called Tarim market.

## Villa Lale Directions

Follow this coast road past Hisarönü until you enter Orhaniye. You will pass a large marina down on the right hand side called Marti Marina as you drive down the hill into Orhaniye.
