

Villa Lale

Entertainment

Villa Lale's Entertainment

Some people do not want any distractions from the beauty of Orhaniye, but if you have kids you may already be asked about the Villa's entertainment facilities:

DVD & TV

■ There is a DVD that plays European Region 2 DVDs, so you can play any favourite UK DVDs that you may bring with you. There are a selection of films in the villa.

■ There is satellite TV in the villa that should receive many Turkish channels.

MUSIC

■ There is a music centre in the villa that plays CDs and has a radio.

IPOD

■ There is a cable with standard 2.5mm plug connected to the music centre so you can play your IPOD or MP3 player through it.
